RACIDA's
GOOD BUSINESS REGULATIONS**

I. Preamble

RACIDA is a non-governmental organisation. Private, non-political, non-denominational and non-profit-making, it was set up in Kenya in 2005 to intervene in countries throughout the world.

TENDER No. RACIDA DKH K-AFM-2022-0375-004

RACIDA's vocation is to save lives by combating hunger, disease, and those crises threatening the lives of helpless men, women and children.

RACIDA intervenes in the following situations:

- In natural or man-made crises which threaten food security or result in famine,
- In situations of social / economic breakdown, linked to internal or external circumstances which place particular groups of people in an extremely vulnerable position,
- In situations where survival depends on humanitarian aid.

These Good Business Regulations are the ground for a professional working relationship between RACIDA and the suppliers.

They are general regulations valid unless others particular conditions are mentioned in the contract. In case of conflicting terms within documents, the conditions of the contract or tender document will prevail on these Good Business Regulations.

II. Principles of the procurement procedures

RACIDA has transparent procedures to award markets. Essential principles are

- *Transparency* in the procurement process
- *Proportionality* between the procedures followed for awarding contracts and the value of the markets
- *Equal treatment* of potential suppliers

Usual criteria to select a supplier are:

- Authorisation to perform the market
- Financial capacities
- Economic capacities
- Technical expertise
- Professional capacities

Usual criteria to award markets are:

- Automatic award (the cheapest offer complying with all requirements)
- Best value for money (price/quality ratio)

III. Misbehaviour, ineligibility and exclusion

RACIDA considers the following misbehaviour as a valid ground for a systematic exclusion of an awarding market procedure and for the termination of all working relationship and contracts:

- **Fraud** defined as any intentional act or omission relating to:
 - The use or presentation of false, incorrect or incomplete statements or documents, which has as its effect the misappropriation or wrongful retention of RACIDA or institutional donors funds

TENDER No. RACIDA DKH K-AFM-2022-0375-004

- Non-disclosure of information, with the same effect
- The misapplication of such funds for purposes other than those for which they were originally granted
- **Active corruption:** to deliberately promise or give an advantage to an official for him/her to act or refrain from acting in accordance with his duty in a way which damages or is likely to damage RACIDA or institutional donors' financial interests
- **Collusion:** the co-ordination of firms competitive behaviour, with the likely result that prices rise, output is restricted and the profits of the colluding companies are higher than they would otherwise be. Collusive behaviour does not always rely on the existence of explicit agreements between firms, but can also be tacit.
- **Coercive practice:** harming or threatening to harm, directly or indirectly, persons, or their property to influence their participation in a procurement process or affect the execution of a contract.
- **Bribery:** to offer RACIDA employees monetary or in-kind gifts in order to gain additional markets or to continue a contract
- **Involvement in a criminal organisation** or any other **illegal activity** established by a judgement that has the force of *res judicata*
- **Immoral Human Resources practices:** exploitation of child labour and the non-respect of basic social rights and working conditions of employees or sub suppliers

RACIDA will exclude from a procurement procedure any candidate or tenderer falling into one of the following cases:

- To be **bankrupt** or to be wound up, to have affairs administered by the courts, to have entered into an arrangement with creditors, to have suspended business activities, to be the subject of proceedings concerning those matters, or are in any analogous situation arising from a similar procedure provided for in national legislation or regulations
- To have been **convicted of an offence** concerning professional conduct by a judgement that has the force of *res judicata*
- To have been **guilty of grave professional misconduct** proven by any means that RACIDA can justify
- To have not fulfilled obligations relating to the payment of **social security contributions** or the **payment of taxes** in accordance with the legal provisions of the country in which they are established or with those of the country where RACIDA mission is operating or those of the country where the contract is to be performed
- They have been the **subject of a judgement** that has the force of *res judicata* for fraud, corruption, involvement in a criminal organisation or any other illegal activity detrimental to the Communities' financial interests
- To have been declared to be in **serious breach of contract** for failure to comply with their contractual obligations in another previous procurement procedure

RACIDA will not award contracts to candidates or tenderers who, during the procurement procedure:

- Are subject to a conflict of interest
- Are guilty of misrepresentation in supplying the information required RACIDA as a condition of participation in the contract procedure or fail to supply this information

IV. Administrative and financial sanctions

TENDER No. RACIDA DKH K-AFM-2022-0375-004

In the event a supplier, candidate or tenderer is engaged in corrupt, fraudulent, collusive or coercive practices RACIDA will impose:

- **Administrative sanctions**

Administrative sanctions are the official notification of the misconduct to the relevant civil or commercial authorities and the immediate termination of all existing working relationships.

- **Financial sanctions**

RACIDA will request the reimbursement of the cost linked directly and directly to the conduct of a new tendering process or market award. If any, the tender or performance guarantee will be kept by RACIDA.

V. Information of the Donors

RACIDA will inform immediately the Institutional Donors and will provide all the relevant information in the event a supplier, candidate or tenderer is engaged in corrupt, fraudulent, collusive or coercive practices.

VI. Provision for institutional donors

The suppliers agree to guarantee a right of access to their financial and accounting documents to the representatives of RACIDA's institutional donors for the purposes of checks and audits.

VII. Documents to be a supplier

Hereafter is the minimal documentation a supplier working with RACIDA will have to provide:

- Personnel national ID document of the supplier/company representative
- Status and registration of the company
- Mission order or power of attorney authorising the representative to contact

Important note: Additional documentation may be required for a particular market.

In addition the supplier should have at least the following administrative material:
